

Equestrian Australia Equipment Annex

In conjunction with Section 5 of the Equestrian Australia Dressage Rules updated in January 2019 (found [here](#)), the Australian Dressage Committee seeks to provide the following information for clarification of permitted equipment for official competition. This document is not intended to imply approval if the target item of equipment is not listed. The Dressage Rules provide clear guidelines as to the equipment permitted. Wherever possible, the EADC is guided by rulings from the EADC and FEI Equipment Committees.

For additional equipment queries, please do not hesitate to fill in the query application form (found [here](#)) or for information please do not hesitate to contact the Equestrian Australia National office. This document will be updated twice a year.

Version 18 – Updated: 31st March 2019

Section 3

BRIDLES & NOSEBANDS

STATUS

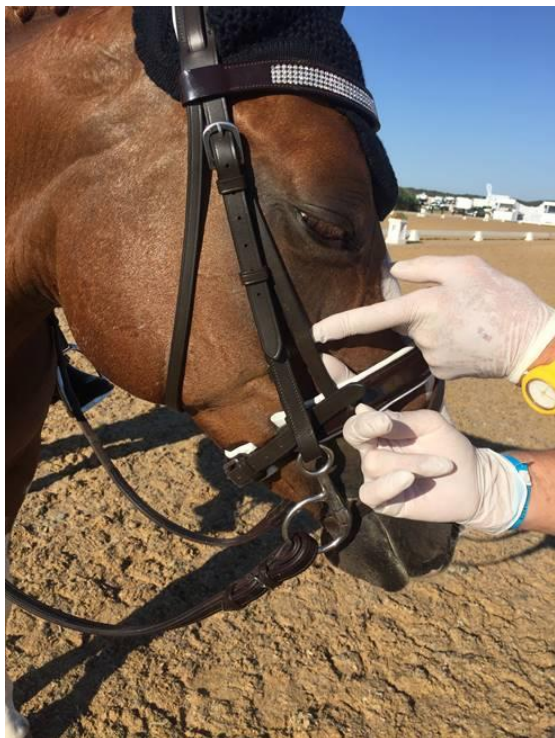

ALL BRIDLES MUST HAVE A THROAT LASH

Equestrian Australian Dressage Committee Statement

The Equestrian Australian Dressage Committee (EADC) wishes to reiterate that **welfare of the horse is paramount** in all that it does, whether developing rules for the sport or in training of its dressage stewards and judges – an active on-going program.

Nosebands that are too tightly fitted regardless of type are never acceptable. Nosebands must never be used in such a way that they interfere with a horse's breathing. Riders failing to loosen a noseband on request from a steward or judge will be **eliminated**.

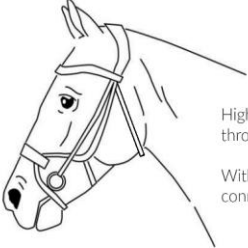

- Noseband checking is done by a steward. It must be possible to place at least **one** finger between the horse's cheek and the noseband. *See illustration below.*
- Nosebands can be checked prior to or after the completion of a test
- Not all nosebands are required to be checked, if a visual assessment confirms that the noseband is **not** too tight.
- During a test if the Judge believes a noseband is too tight, they must at the end of the test instruct the rider to return to the gear check. The Steward must report back to the judge after checking the noseband.
- When checking bridle/noseband the steward must wear two clean disposable gloves
- The checking of the bridle/noseband must be done with the greatest caution, as some horses are very touchy and sensitive. Stewards must keep in mind that the safety and welfare of the horse and the Athlete are our highest priority and concern!
- The execution of adjustment of equipment must be done by the rider or the groom and **not** the steward.

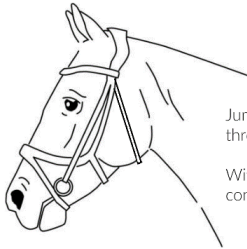

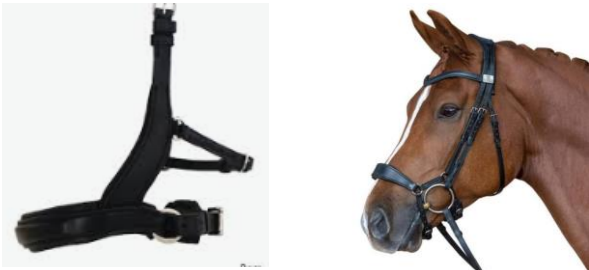

Measuring a cavason noseband
